

 **KUMAMOON**

WHITEPAPER

DISCLAIMER

This paper and the written content on the official project website make no legal claims whatsoever. This document is intended for educational purposes only, to further awareness surrounding the evolving Kumamoon project. Kumamoon and its associated ecosystem including the KMOON token, the project's brand, smart contract, website, and IP does not constitute a payment service or a security, and contains no inherent financial advise or promise of financial return. As a decentralized project, there are no shareholders or board members affiliated with Kumamoon.

The KMOON token is a utility token that exists to fund crucial operational tasks like community rewards programs, partnerships, and marketing efforts. Like any digital asset, KMOON is subject to high volatility and the threat of attack by bad actors. Kumamoon is not responsible for any losses incurred when investing or becoming involved in the Kumamoon project. Buying, storing, or transacting with KMOON tokens and using the project's website is done at your own risk.

Roadmap

ABSTRACT

Kumamoon was launched in 2024 with one goal – to take over the meme industry. With the adorable, world-famous “Kumamon” (here called Kumamoon) mascot on side, the Kumamoon project aims to elevate the standard of meme coin projects beyond the price-driven feeding frenzy seen in recent years and take it back to its roots. Memes.

WE THINK KUMAMOON IS GOING TO BE BIG

WE’RE GOING ON A JOURNEY

WE’D LOVE YOU TO COME ALONG

WHO COULD LOOK AT THE KUMAMOON MASCOT AND NOT FEEL A SENSE OF JOY?

This project is an Ethereum-based ERC20 meme coin aimed at bringing people together to create and share art and to emulate the values that our mascot represents. Happiness, enthusiasm, excitement, and community.

We have had interest from such a talented group of people that the team is now in a position to launch this project in a way that we think will make a big splash in the meme coin industry.

TELL US A STORY

The beautiful, bear-like beast featured in our project logo is one you've probably seen before. In 2010, the government of Japan's Kumamoto Prefecture released an official mascot. Kumamon. Kumamon, they said, was there to make people smile and bring awareness and tourism to their area. And the world loved Kumamon, very much. In fact, Kumamon was so popular that Kumamoto Prefecture didn't even want to keep him for themselves.

Kumamon, they said, was free to travel the world and associate with any project that wanted to use his beautiful image for their own work, and that's exactly what we've done here.

In homage to the happiness Kumamon brings and the unity he has created in projects around the world, we've decided to bring Kumamon on board to the Kumamoon project.

ECOSYSTEM OVERVIEW

Let's dive in to what exactly we're building with Kumamoon.

\$KMOON TOKEN

First and foremost we have, of course, the KMOON token that underpins and fuels the entire ecosystem. The token is how we aim to grow and reward our community, develop partnerships with influencers and media publishers, and we have big plans for down the road on how we're going to introduce further utility as time goes on.

SWAP FUNCTION

You can get some KMOON of your own instantly on the site by trading it for Ethereum. Part of our roadmap goals include securing centralized listings as well, and we have multiple team members highly experienced in making that happen. There is no buy or sell tax for buying or selling Kumamoon.

MERCH

We're planning a wonderful line of merchandise featuring our Kumamoon mascot. We love him by the way, I don't know if we mentioned that already. I mean, come on. Look at him.

MEDIA MADNESS

Like any successful meme coin, we're going all in on media relations. We're forming partnerships with influencers and major media brands to make sure everyone in crypto will come to know and respect the Kumamoon brand.

IVENDPAY ADOPTION: SPEND IT LIKE CASH

One exciting aspect of the future utility of KMOON is that we're working with Ivendpay to allow KMOON to be used as cash. Ivendpay is a cash point service active internationally in 400 different business locations. Once KMOON is added to the supported token list, you'll be able to tap your phone to pay in KMOON for a meal or a weekend away.

NFT COLLECTION

We're launching an NFT collection, but with a twist. Early adopters of KMOON token will receive a free limited edition NFT airdrop, and, in the future, we're planning on issuing rewards available only to NFT holders. This applies to the first 500 buyers with a net investment of \$1,000 worth of KMOON. Not everybody is going to be able to receive one of these unique Kumamoon NFTs, but that will make ownership all the sweeter for whoever the lucky holders end up being.

KMOON GAME

We're developing a game integrating our mascot and KMOON token in a way that we think will be very rewarding for participants in our ecosystem. We have big plans for the game – watch this space!

VALUES AND MISSION

JOY

The first time many people saw the Kumamon mascot, he was dancing. Little since then has changed. The entire point of a meme coin project, in our view, is to create an online space that people genuinely love to participate in, and that's first and foremost on our mind as members of the team helping to steer the direction of Kumamon.

DEMOCRATIZING MEME COINS

Transparency is key to the success of our project. We're going to publish our token address, our upcoming project audit, and regular project updates as well as maintaining a constant flow of communication with the community to make sure everybody is getting what they want out of the project. We're democratizing meme coins, and we want you to be a part of this journey with us.

COMMUNITY COMES FIRST

This project has an open door policy and will rely heavily on community feedback. The team is really just here to curate the desires of the overall community and make sure our collective dreams become a reality. You speak, we listen.

AN EYE TO THE FUTURE

We're here for the long-term. Too many meme coins are flash-in-the-pan projects with no ambition or organized structure. We've been sitting on this project while we build the right team with the right experience to get the job done. We know how to build a community, we know how to leverage media contacts, we know how to build a brand, and we know how to have fun. That's why we, and that means you as well, are going to make it big.

TOKENOMICS

\$KMOON is an ERC20 token deployed on the Ethereum blockchain in X 2024.

10B

Total Supply

90%

DEX Liquidity Pool

7%

CEX Liquidity Pool

3%

Airdrop

KMOON is what powers the Kumamoon project. If a meme coin project can't afford to reward the community and fund contests and events before it even gets started, then the community falls apart. KMOON will also be used in NFT rewards and as a way to develop and maintain a presence on social media.

You can personally monitor the supply wallet with the ENS name [kmoon.eth](#).

KMOON is for sale on our website and Uniswap.

ROADMAP

PHASE 1

- ✓ Launch
- ✓ DEX Listing
- ⌚ 2000 holders
- ⌚ KMOON Discord

PHASE 2

- ⌚ CEX listings
- ⌚ 500 NFT drop
- ⌚ Newsletter
- ⌚ Pay KMOON

PHASE 3

- ⌚ Merch
- ⌚ Community rewards
- ⌚ Partnerships
- ⌚ 20,000 holders

PHASE 4

- ⌚ KMOON game
- ⌚ Top tier CEX
- ⌚ 100,000 holders
- ⌚ To the KMOON
